

Directory

Mosaic Adults

Optional Forms

24 April 2020

Introduction

This directory will help you to find which optional forms are available within each workflow step. Only one of each type of optional form can be opened within each workflow step; consequently, some optional forms can be created in Documents.

The directory also states what type of form it is (i.e. form or letter).

You should refer to the user guides and workflow maps for information about when and how to use optional forms, including which optional forms cannot be sent through the Mosaic system (e.g. Penderels referrals).

The directory is listed alphabetically, with relevant workflow steps listed under 'Available in'. To find the information you want, press 'Ctrl' and 'F' at the same time, type in a word from the optional form or workflow name and press the return key. You can then scroll through the options until you find what you are looking for. You are advised to not search for the word 'Adult', because it precedes many workflow step names.

Please note:

The activities listed in this directory are regularly reviewed and amended within the Mosaic system. The information within this directory is accurate at the time of publication and is frequently updated to include the amendments. So you are assured of receiving the most up to date information, always refer to the electronic version which is hosted in the Mosaic Hub (www.lincolnshire.gov.uk/mosaic-hub).

Do not print or save this directory to your computer.

(Adult) Support Plan Costings

- Type: Form

Available in:

- Adult Review of Care and Support Plan
- Adult Review of Care and Support Plan (Revised)

Adult Adaptation City of Lincoln Council Property
