

Operation Description: Reducing the spread of COVID-19 when working in LCC Buildings

Operation Location: Mablethorpe Children's Centre

Persons at Risk: All employees/contractors/public/family member

Risk Assessment Guidance

Hazard: Something with the potential to cause harm.

To Assess Risk: Using the tables below, consider **Severity (S)** and **Likelihood (L)** without Control Measures. **Multiply (S x L)**

If applicable, **add the Weighting** figure.

Describe Control Measures: Control measure(s) **reduce** the likelihood, **and/or** severity of harm, reducing risk.

Re-assess Risk, considering Severity (S) and Likelihood (L) **with** Control Measures in place.

Multiply (S x L) and, if applicable, **add the Weighting** figure = **Risk Rating** (with controls).

Severity (S)	x	Likelihood (L)	+	Weighting (W)	=	Risk Ratings (R)	
Fatality = 5		Likely = 5		Apprentice/trainee/inexperienced staff member/young person (15-18yrs) = 5		20 +	Very High Risk
Injury (Specified injury / RIDDOR reportable) = 4		Probable = 4				15 - 19	High Risk
Injury (requiring treatment and/or 3 to 7 day absence) = 3		Possible = 3		Part-qualified/staff with less than 2yrs experience/persons aged 18-25yrs = 3		9 - 14	Medium Risk
Injury (requiring treatment and/ or absence less than 3 days) = 2		Unlikely = 2				4 - 8	Low Risk
Minor Injury = 1		Very Unlikely = 1		Fully qualified/professional/ management/ and/or persons above 25yrs = 0		1 - 3	Very Low risk
