

LET'S TALK RUBBISH

Schools Programme

Draw a line between the word and its definition.

Reduce

To use the same item more than once, rather than getting rid of it after one use.

Reuse

Rubbish that has been thrown away incorrectly.

Recycle

This happens when non-recyclable materials are mixed with recyclable materials.

Energy From Waste

The process of turning waste into reusable materials.

Contamination

A site where unrecyclable waste is buried between layers of dirt.

Landfill

A site where people can dispose of household waste.

Litter

To produce less amounts of rubbish.

**Household Waste
Recycling Centre**

A site where energy is generated in the form of heat or electricity from waste.
