## **Please note**

This document is intended to support staff who have attended the Mosaic training course relevant to their role. If you have not attended a relevant course, please contact the [Mosaic Children's Training Team](#). Every effort has been made to ensure that screen shots included are current; there may be some minor differences in look and feel within the system. All data-examples included in this document are fictitious. Any resemblance to real persons, living or dead, is purely coincidental.

## Introduction

---

This guide follows the steps completed by the Safeguarding & Review team, Child Protection Conferences Chairs and Meeting Support Assistant for completing the Child Protection Conference worksteps.

When it has been decided that a child or young person is at risk and a Child Protection Conference needs to take place a Section 47 Investigation will have been completed. This workstep has next actions **SC Initial CP Conference, SC CP Chairs Activity** and **SC Social Worker Report to Initial CP Conference**. The SC Initial CP Conference workstep will be assigned to the Virtual Worker **CS CP Conference – Meeting** for the Safeguarding and Review Team to access. The SC CP Chairs Activity will also be assigned to the **CS CP Conference – Meeting** so it can be reassigned when a Chair has been allocated. These may be single subject or group worksteps.

## Group Records

---

If a group record has been created, the following box will appear on the **Person summary page** of each sibling. The naming convention for Family Groups is 'Family <surname>'.

**Please Note:** If the group contains siblings with different surnames, then the group name would still contain the word Family, followed by the different surnames, starting with the oldest sibling.

When a **group record** has been created, there is no need to do this again. It means that the Child Protection workflow can be carried out on the group record, rather than on each individual.

If single subject Initial CP Conference or CP Chair Activity worksteps are assigned to the Virtual Worker for siblings that need to be grouped, please contact your designated Safeguarding & Reviewing assistant who has the access rights that allow them to merge the worksteps for you.

## SC Initial CP Conference – Conference Chair and Safeguarding & Review team

---

**Please Note:** Information from the Social Workers report to Conference now maps into the Initial Conference workstep. For Review Child Protection Conferences, the Social Workers update will map from the Core Group Meeting worksteps. For this to work effectively, these steps will need Finishing by the Social Worker before the Child Protection Plan is loaded into the Conference workstep.

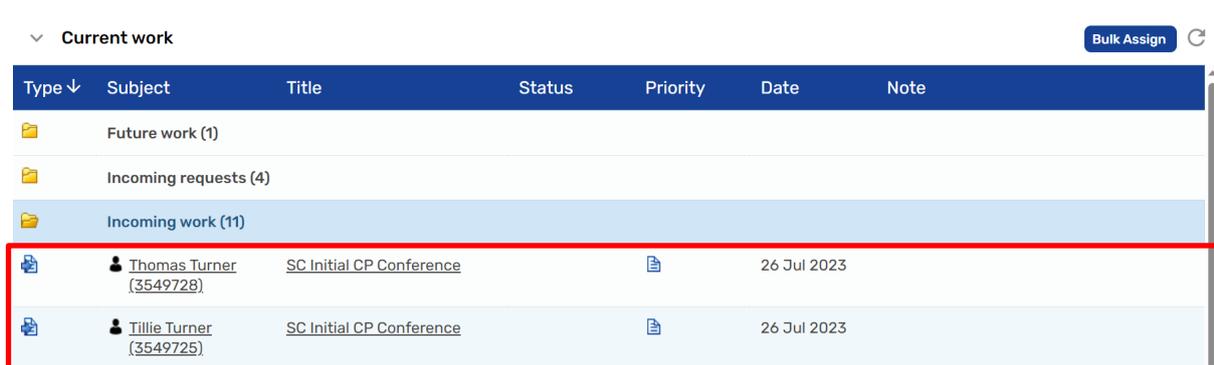

As this workstep is accessed by several different workers, this section of the guide will be split so that each worker can identify the parts they need to complete.

## Recording the Initial Conference and invitees - Safeguarding & Review Team

---

The **SC Initial CP Conference** workstep is the first in the CP process. A member of the **Safeguarding and Review team** taking responsibility for the Initial CP Conference workstep must access it via the shared Virtual Worker Inbox entitled **SC CP Conference – Meeting**. Within this Inbox, if the SC Initial CP Conference step is available for individual siblings, the steps will need merging prior to completing.

**Please Note:** The merge can only be completed by a member of the team that has the correct worker permission to do so. Additional children should not be added to a Conference step unless you have been given the access rights to merge steps.

If any are missed a red warning will display within the Next Actions screen advising which additional actions should be selected.

The current Next actions that are available are as follows:

The MSA should select the Plan and load it to the workstep for the Chair to complete. Click on the optional forms and letters icon  and select the **CP Child and Family Progress Plan C1307**.

The MSA can use the  view documents icon to upload any documents required relating to the conference.

The MSA must also use the Request icon  to send the **REQUIRED CS Chair to confirm decisions and recommendations** request to the Chair.

The workstep can now be **saved and closed**.

## **Recording the Initial CP Plan – within 24 hours of the conference – Conference Chair**

Once the MSA has completed their tasks within the Initial CP Conference step, the **Chair** must go onto the workstep and record the **CP plan**. This is usually done after the conference **within 24 hours**.

The Chair will receive an Incoming Request from the MSA to notify them that the Conference step has been updated and is ready for them to check and update the plan. This will appear within **Current work** under **Incoming requests**.

**Members of the support network** – clicking on **Find** will open the **Find Party** window, allowing the chair to search for people, workers and organisations or manually input a person's details using the tabs at the top. Once the details have been selected, use the additional fields to record how they have contributed to the plan.

The screenshot shows the 'Find party' interface. At the top is a blue header with the text 'Find party'. Below this is a row of four tabs: 'Find person', 'Find worker', 'Find organisation', and 'Manual input'. The 'Find person' tab is highlighted with a red border. The Chair must then navigate to the **CP Record of Initial CP Conference C0618** tab. Information in this form will have been recorded and updated by the MSA. The Chair is responsible for ensuring that the information recorded is correct including the Next Actions that have been added in **Section 4. Next actions**.

Once the information has been checked navigate to **Section 3. Conference Decisions**. The **Next Actions Checked and Verified** section has two checkboxes that need ticking by the Chair.

This allows the Chair to confirm they have completed all of their tasks and reviewed the decisions and recommendations and added the next actions.

Before the workstep can be finished, the Chair must navigate to the  Requests button and mark the **highlighted request** as **Completed**. The Chair can now click the  finish button to **finish** the step. This will send all of the worksteps generated as next actions to the relevant workers.

**Please note:**

It is important the correct next actions are added from the Initial CP Conference and Review CP Conference as these steps cannot easily be reopened to amend. Please take careful consideration before finishing the step and ensure the correct actions are added for each child in the conference. The guide [Social Care step down to TAC \(Internal\)](#) or [Social Care step down to TAC \(External\)](#) can be used to guide you through the process to step down to TAC from the Review CP Conference.
