IDL Literacy

IDL Literacy is an intervention software proven to increase pupils' reading and spelling ages by an average of 11 months after just 26 hours of use. It has been designed to support pupils improve their literacy skills, particularly if they have dyslexia or dyslexic-type difficulties.

IDL Numeracy

IDL Numeracy is an innovative education software that uses a **strand-based** approach to improve ability for low-attaining learners in mathematics. It includes a fully graded course to support the National Curriculum for KS1 and KS2 maths. It is designed with dyscalculic and low level ability pupils in mind.

IDL Wellbeing

IDL Wellbeing is designed to fit alongside your whole school approach to mental health, toughness and behaviour. Developed alongside a psychologist, IDL Wellbeing uses contemporary theories and mindfulness practices to improve mental health, resilience and equip pupils with essential skills for life.
