Once all the fields have been completed, the corresponding **Optional Forms** will need to be generated via the  $\boxed{1}$  forms and letters icon and any paper documents will need to be uploaded via the  $\checkmark$  view documents icon.

Clicking the  $\mathcal{U}$  view documents icon > Attach a document will open the **Attach document** window.

**Please Note**: The following naming convention must be used when attaching a document so that it can easily be found again if needed: (Doc name, completed by [ints] - [date of document]).

The relevant **Main Category** and **Sub-category** must then be selected to indicate the team and type of document being uploaded. Click the **Add** button to upload the document.

**Section 2. Statutory Checks** allows the worker to record the details of all the checks made for the prospective carers. The following checks are recorded in this section:

**Please Note**: If the checks are returned at different times, the details of the received check can be recorded and then click on the a save icon to save and then close the workstep. Each time a new check is received, click on **Resume** to continue recording.

If there are any causes for concern highlighted in any of the documents returned during the process, click on the requests icon and select **CS Please Review and confirm next action**, and use the **Find** button to send this to the SSW, PS or TM. This will prompt the SSW, PS or TM to review the documents attached and decide what the next course of action should be.

Once the DBS has been received, the worker must then navigate to **Section 3. Next** actions and click the **Add** button to open the **Next actions** window.
