4. The Court IDVA (Independent Domestic Violence Advisor) provides crucial support to victims of domestic abuse navigating the court process. 5. IDVAs attend all scheduled and emergency Multi Agency Risk Assessment Conferences (MARACs) to represent the victim and co-ordinate the actions of Partnership Agencies. Where appropriate the IDVA will also attend Multi Agency Public Protection Arena (MAPPA).

6. How to make referrals into the Service:

All referrals of High Risk Cases to the IDVAs are allocated via the MODUS case recording system. On assessing a victim as being at high risk of homicide or serious injury due to domestic abuse and/or violence, using the ACPO/CAADA/DASH (2017) Risk Assessment tool-kit, the referring agency should send a completed MARAC referral form and the completed Risk Assessment to the County Domestic Abuse Administrators.

On receipt of the referral and risk assessment, the County Domestic Abuse Administrators will enter the case onto MODUS. MARAC referrals are assessed by the IDVA within 48 hours. It is essential that all mandatory fields on the referral form are completed, as those without clear consent will not be referred to the IDVA.

Referral paperwork must demonstrate that the referral is based on the use of the current DASH Risk Assessment and practitioners must ensure that cases meet the referral criteria and that the agency's MARAC representative approves all referrals prior to sending.
